

GPB 330

The 300 series marks a significant step in push-button design. Manufactured with a twin shot moulding process the GPB300 series allows a stunning combination of visual effects. Optional 'Halo' version available.

- Connection can be made by either spade/crimp terminal or single standard 6 or 7 way IDC or crimp connector
- Illumination comes from a 10mm wedge based lamp or the unique single or dual LED solution.
- Lens caps, bezels and body are available in a wide range of solid and translucent colours for a variety of visual effects.
